

### Early Stage Researchers Group (ESRG)

- Will contain young participants horizontally from all WGs
- In collaboration with WGs, will organize workshops and training schools/seminars and promote interaction with the other WGs

The ESRG group will be formed as a distinct overarching structure in order to maximize:

- (i) the transfer of knowledge from experienced researchers to ESRs (teaching, training and joint supervising scientific activities) and
- (ii) the active involvement of ESRs in overall Action activities (scientific, organizational, leadership, networking, reporting, dissemination and publicity).

## Early Stage Researchers Group (ESRG)

---

What are the next steps?

- To MC members: Please send (before 1/10/2012) to ESRG leader: [lioumbas@gmail.com](mailto:lioumbas@gmail.com) the e-mails of possible ESR members.
- Each potential ESRG member can note by e-mail if want to be nominated as:
  - Green and Smart Master: Monitoring the achievements (e.g. *published articles, joint proposals, exchanges of young researchers between groups etc*) with respect to Green and Smart aspects that take place **within** the WGs or
  - Training and career development Master: Monitoring the: announcements on forthcoming research projects and opportunities in labs and industries (*not only within the MP1106 Action*) concerning **and** the recruitment of young researchers (e.g. *Ph.D and post-doc open positions, calls for grants, awards, etc*).
- The ESRG composition will be electronically finalized before the next MC meeting.
- The first ESRG meeting will be held along with the next MC meeting.
