
Early Stage Researchers Group (ESRG)

Early Stage Researchers Group (ESRG)

The ESRG group will be formed as a distinct overarching structure in order to maximize:

- (i) the transfer of knowledge from experienced researchers to ESRs (teaching, training and joint supervising scientific activities) and
- (ii) the active involvement of ESRs in overall Action activities (scientific, organizational, leadership, networking, reporting, dissemination and publicity).

1. Will contain young participants horizontally from all WGs
 2. In collaboration with WGs, will organize workshops and training schools/seminars and promote interaction with the other WGs
-

Early Stage Researchers Group (ESRG)

What are the next steps?

1. To MC members: Please send (before 1/10/2012) to ESRG leader: lioumbas@gmail.com the e-mails of possible ESR members.
2. Each potential ESRG member can note by e-mail if want to be nominated as:
 - Green and Smart Master: Monitoring the achievements (e.g. *published articles, joint proposals, exchanges of young researchers between groups etc*) with respect to Green and Smart aspects that take place **within** the WGs or
 - Training and career development Master: Monitoring the: announcements on forthcoming research projects and opportunities in labs and industries (*not only within the MP1106 Action*) concerning **and** the recruitment of young researchers (e.g. *Ph.D and post-doc open positions, calls for grants, awards, etc*).
3. The ESRG composition will be electronically finalized before the next MC meeting.
4. The first ESRG meeting will be held along with the next MC meeting.
