

COST MP1106

SMART AND GREEN INTERFACES: FROM SINGLE BUBBLES/DROPS TO INDUSTRIAL/ENVIRONMENTAL/BIOMEDICAL APPLICATIONS'

- Partner : Aix-Marseille University – IUSTI UMR 7343
- Contact point : David BRUTIN
- Number of PhD students presently involved on these topics: 3
- Activities on “droplets evaporation of pure and complex fluids”
 - use of pure fluids, nanofluids, biological fluids
 - use of microgravity facilities to suppress thermo-gravitational convection
 - use of infrared technics to perform visualization at the triple line scale
