

Aix-Marseille Université
UMR-CNRS 7343 IUSTI
D. Brutin

1 permanent member
3 PhD's

Main research activities

Evaporating droplets

Transport in complex
fluids (biology)

Boiling, nucleation

Wetting

Equipments, devices, etc □

IR thermography, Optical microscopy, Heat flux measurement devices
(Imaging, High speed cameras, etc)

Projects, collaborations COST MP1106

Heat and mass transfer in complex fluids (microgravity - ESA CIMEX)
Complex fluids contact line dynamics
